Poker JOKER'S WILD

Joker's Wild, also known as 'Joker Poker' is a well known poker game, based on the typical five card draw game.

It's played with the standard card deck with the addition of a Joker.

The Joker is a wild card so offers higher odds

of making a winning combination. Win with a pair of Kings or better.

Double up winnings with a 'Beat the Dealer' or 'Hi-Lo' gamble

FlipPoker brings Joker Poker to a new level, using state of the art 'Flipcard units'.

Flipcard units feature high speed spinning poker cards with multi colour LED illumination.

FlipPoker gives players a real-poker-experience!

If you have special requests or need any information, please call our sales department.
